

Find Similar Library Tracks (Multi-Track)

POST `https://rest-api.cyanite.ai/v1/private-alpha/library-tracks/similar`

Get a list of Tracks from your Library that are most similar to the set of reference Tracks specified in the request body.

The endpoint calculates an equal mix of all your input songs, and finds tracks in your catalog similar to that equal mix.

Up to 10 reference tracks may be supplied. When a single reference track is supplied the behaviour is equivalent to the single-track similarity endpoint.

Request

QUERY PARAMETERS

limit `integer`

Possible values: `>= 1` and `<= 50`

The maximum number of tracks to return. Must be between 1 and 50.

Default value: `20`

Example: `20`

APPLICATION/JSON

Body

Example (auto)

BODY **REQUIRED**

tracks `object[]`

REQUIRED

One or more reference tracks. All tracks must belong to your account. The mean embedding across all tracks is used as the search query.

Possible values: `>= 1`, `<= 10`

Array [

id `string`

REQUIRED

The unique identifier of a track in your Cyanite Library.

Possible values: Value must match regular expression `^libtr_`

Example: `libtr_01KFGMPCN97HQYHQR6`

]

metadataFilter object

A metadata filter to set qualifications for candidate results.

property name* any

A metadata filter to set qualifications for candidate results.

Example: `{"BpmV2.tag":{"$gte":120}}`

422

429

A list of Library Tracks similar to the reference tracks

APPLICATION/JSON

Schema

Example (auto)

SCHEMA

items object[]

REQUIRED

The list of Library Tracks in this page of results.

Array [

track object

REQUIRED

score Score

REQUIRED

A number between 0 and 1 representing the quality of the search result

Possible values: `>= 0` and `<= 1`

]

pageInfo object

REQUIRED

Pagination information for navigating through results.

nextCursor object

A cursor to retrieve the next page of results. If `null`, there are no more results to retrieve.

anyOf

string

null

string

previousCursor object

The cursor that was used to retrieve this page of results. Can be used to re-fetch the current page.
